

Actually I wanted to express my gratitude for not attempting to stop Sinclair from showing the documentary. To silence the views of our Veterans would be an atrocity not only to our freedom of speech, but also one committed against people that have shown a willingness to put life and limb on the line for our sakes. To try and silence a particular sect of people such as this is a political move... one of which is very dangerous to the Republic which we all hold so dear. If we are to start silencing those that political parties would speak against, then our Country has little chance for any thing other than propaganda and Socialism...

May God Bless the United States of America!!!
